

# Pharmacists' Gateway Canada for International Pharmacy Graduates

For international pharmacy graduates who wish to practise pharmacy in Canada, the Gateway is a new tool that makes it easier to find important information regarding the steps to be licensed as a pharmacist in Canada. Created by the National Association of Pharmacy Regulatory Authorities in collaboration with the Pharmacy Examining Board of Canada and with funding from Employment and Social Development Canada, **Pharmacists' Gateway Canada** provides a central place to find licensing information, offers self-assessment tools, and establishes a confidential national document repository for international pharmacy graduates.

## INFORMATIVE

International pharmacy graduates can find everything they need to better understand and navigate the Canadian licensure process and to ensure they are ready to start.

## EASY

Pharmacists' Gateway Canada consolidates and streamlines the pharmacist licensure process for all provinces and territories in Canada. International pharmacy graduates only need to submit their identity and credential information once, which reduces duplication and saves time and money.

## PRACTICAL

International pharmacy graduates can begin the licensure process through the Gateway, in one single convenient location from anywhere there is Internet access. When ready, they can enrol in Pharmacists' Gateway Canada from their country, on their own time and at their own pace. International pharmacy graduates can also monitor their progress through their personal, confidential Gateway account.

## EDUCATIONAL

The Gateway provides international pharmacy graduates with two excellent self-assessment tools: one to help determine readiness for pharmacy practice and licensure in Canada; and a second to help identify areas for improvement in their pharmacy practice skills and knowledge, and obtain relevant learning resources and opportunities.

## CLIENT-CENTERED

As a point of entry to the pharmacist licensure process in Canada, Pharmacists' Gateway Canada provides access to clear and up-to-date information on licensure and guides international pharmacy graduates, step by step through the process. Personalized telephone and e-mail support are also available.
